Our San Francisco Letter.

Euri Benconsfield says "personal acquaintance with and knowledge of, governing persons and powers is the shrest passport to political success."

Our Island Kingdom may be small in territory—but it is large enough—to win respect and comity from all the world, and in its well-being and future is beened up the welfare of its subjects.

from some more authentic source than from lakes trees and through energy accurate to the first of the source source than from the first of the source of the first of the source of trade rivalry than humanity at the bottom of this sensation—if sensation it shall prove to be. We shall see what will be developed.

The first of the series was evidently simed at Mr. Spreckeds, who with his nead vigor, has taken the matter up, and will have either a retraction in fall, or redress at law. But in the latter articles, stabs and flungs at the King, indicate a hope of money from that quarter.

Indicted Captain Howgate for emberzing, section of the look of the bond and the bonds are w. B. Mosca, W. W. McCallough and Motley Anderson.

stabs and flings at the King, indicate a hope of meany from that quarter.

Fortunately, the very violence of the articles is such, and the animus is so transparent, as to overshoot the mark. The public begin to disbelieve in it at all, and will probably end, in seeing more foreilly than ever, the character of the Chronicle, as in inverceious and vicious nowapager.

A Mr. Jameson is one of the amborities given, who by the way, gives himself out as one of the educated size of the Laud Act. Parnell was taken to Kilmaintam jail. Detroves, the Superintendant who arrested Parnell was accompanied by the say gives himself out as one of the education. This may be a fine as well as his other statements. At all events, its career at the islands as a "isbor tramp," and his incarceration in jail and subsequent trial on charge of robbing the safe of Ted Jones, will be aired in the nexapagers here. Mr. Jameson has already been deported to Mexico, by his careful french been, his pressage having been paidfor him. The "elder't printernam" also who did not wish him name to appear, points to one who left your aboves me being since, at the desire of his congretates.

The role of the Chronicle as a bumanitarian is a new one, an assumption, which will not be believed in. It has minurerous sink to repent of, before the public will credit it with a desire to promote good or manitants of the probable will credit it with a desire to promote good or manitants of the probable will credit it with a desire to promote good or manitants of the probable will credit it with a desire to promote good or manitants. Members of the Fort Street church possibly will be atterested in the following explanation of Rev. J. D. Strong, of a step which he has taken; if appreciated about a year ago since. It only shows that these works wunderful changes with us all. In the 150% he was a staunch Presbyterian, and pastor of 176m he was a staunch Presbyterian, and pastor of 176m he was a staunch Presbyterian, and pastor of 176m he was a staunch Presbyterian.

The facts are those: Eight or ten years ago I made a long and exhaustive investigation of the origin and history of religious ideas from the origin and history of religious ideas from the original sources, and as a consequence caused to believe the doctrines of the Prestyterian Church, or any other church, in their present degraded forms. Gold cases are simped "A. W. Co.," and guarantee certificates accompany them. Silver cases are stamped "Am. Watch Co., Waitham, Mass., Steffing Silver, and are accompanied by guarantee certificates, signed R. E. Robbins, Treasurer. The name "Waitham" is plainly engared upon all movements, irrespective of either distinguishing marks.

This cantion is rendered necessary by reason of the fact that our cases are frequently separated from our movements and put into worthless movements of other makers, and else ceres, thus affecting injuriously the performance of the watches and vitilating our guarantee, which is intended to cover only our complete watches wholly made by us. It is necossary, also, because it is so notorious as to be a public scandar, that there is great fraud in the metal quality of both gold and silver cases as now generally soid. We have demonstrated by frequent assays that many gold and silver cases offered in the marriest are debased from it to 29 per cent, from the quality they assume to be. This is a fraud upon the

frequent assays that many gold and silver care. From in the quality they assume to be. This is a frand upon the purchaser, and accounts for the low price at which such cased watches have been suid.

We take this occasion to announce that we have recently entirely remodelled the very popular grades of full plate merements, known by the marks. Wan. Elicity, "Appleton, Trary & Co.," "Waithnin Watch Co.," "P. S. Bartlett.," and "Broadway" giving to them not only a highly improved appearance, but great additional value. We embody in them such of the best results of our experience and study for twenty years as can be useful in this popular form of watch. We give these new model watches special recommendation to all wha look for good perfurnance and solid excellence at moderate cost. The alterations have been made with the view of pleasing practical watch makers, as well as

We are much mistaken if this what the public wants or expects, of us, at least. Good watches cannot be made when neither workman nor employer has pride in its occupation; interest and pleasure in the work are such wanting, and both are essential in good watch making. Low price, especially in watches, means lost panilly, with lose performance and high repairs.

Our mission was, and our business is, to make good watches, whatever the cost; holding firmly to this single surpose, we have seen improvement in quality and rejection in cost, by means or discoveries and improvents in machinery and by natural causes, go steadily
